### SOME AFTER THOUGHTS

The object of the Scriptures is not to force itself upon unwilling men but to help those who are willing to be helped into Eternal Life.

The Law of Christ is given us not because God is an arbitrary ruler but because He is a Loving Father. And transgression of law works ruin in His children.

A preaching, teaching or living which does not emphasize the things Jesus Christ emphasized is unbalanced and unsafe.

By our Faith we come to God. By our obedience God comes to us. These are the conditions of our salvation.

The Law of Christ is to the man who is in harmony with Him the good and acceptable and perfect will of the Father.

Christlessness will not save a man from temptation but it will render him invincible in the face of it.

Faith is not something a man professes, but something a man has, that which makes him so fully accept as truth what God says that it sways his conduct and molds his character.

The sermon on the Mount, if given full control of a man's life, lifts his whole being to a higher plane, purifying, refining and ennobling body, mind and spirit.

We should not only compare Scripture with Scripture, but we should diligently compare our interpretations of Scripture with Scripture.

Allegiance to Christ means obedience to Him. Loyalty to Christ means doing what He commands. Accepting Christ means conforming to His conditions of discipleship; confessing Christ means living His life before men; loving Christ finds its highest expression in loving our neighbor as ourselves.

In a matter of such infinite importance as salvation in which eternal life is involved, I dare not trust any one's word or advice or opinion save Him who is the author of Salvation, and He says—"If thou wilt enter into life keep the commandments." Men have tried in a score of ways to belittle and deny and explain this Word, but Christ says: "The Word that I have spoken the same shall judge him at the last day."

### A RABBIT FARM

There are lots of interesting and wonderful places in and near Torrance, but the one we are most interested in right now is the oil field in the western part of town, and there are other interests there beside oil. One is the Deinger-Bush Rabbitry, on Carson street, about one-half mile west of the school. Although this rabbit farm is visited by many people from nearby cities, there are lots of Torrance people who have not taken advantage of this interesting sight. There are many kinds of rabbits, and on each hutch appears a little history of each occupant, but the one attracting attention now and who really caused this bit of publicity is "Alice," a Giant Flemish doe, a very famous and familiar rabbit to people interested in rabbits in this section of the country.

Last Saturday an addition was found in Alice's hutch, a great addition, for Alice had twenty-three babies. This wonderful Flemish Giant broke a record, with everyone a fine, healthy, and exceedingly large bunny, who, by this time, with their week's growth, are a beautiful sight.

Many of us who are well acquainted with "Bob" Deineiger of the Neill come acquainted with his wonderful rabbitry, managed by Mr. Bush, a World War veteran, who has gained his pre-war health in our "Sunny Southland," which he much prefers to his old home in New Jersey.

### A NOSE FOR NEWS

Not everyone has a nose for news. In fact, if we started out to count noses today we feel sure we'd find very few that could actually "scent" a news item, unless it was of tremendous importance. And yet everyday something is occurring in your home or your neighborhood that is actual news. The coming and going of yourself and your neighbor; unusual crop harvests; stock or farm product sales above the market figure—all that is of interest to someone. It may appear small on the surface, yet of such things are readable newspapers made. We can't be everywhere at the same time, and can't hear all of the things that are going on that should be in the paper. That is why we'd like to have you train your nose for news, and send or bring us items which you feel we haven't heard. It all goes to make up your home paper, and goes a long way toward reflecting the hustle and progress of the community in which it is published.

### TURN HAIR DARK WITH SAGE TEA

If Mixed with Sulphur It Darkens So Naturally Nobody Can Tell

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustrous and appearance of abundance which is so attractive.

In 1914 an enterprising Danish Post Master conceived the idea of using a stamp as a Tuberculosis Seal in order to secure funds for a sanatorium for children.

But to America belongs the honor of the first seal, which was the charity stamp that originated during the Civil War, when over a million dollars was raised to care for soldiers in Northern hospitals.

Later in 1917, Jacob Riis, the well known writer and friend of Theodore Roosevelt, received one of the Danish Tuberculosis Christmas Stamps. He wrote an article about it for the OUT-LOOK, when Miss Emily Bissell, a prominent Tuberculosis worker in Delaware conceived the idea of using a Christmas Stamp to establish a Tuberculosis Hospital outside of Wilmington. The first seal sale brought \$3,000 for Miss Bissell's project. The following year the great International Congress on Tuberculosis was held in Washington. This was the beginning of organized effort for the control of Tuberculosis in America. The American Red Cross adopted the stamp for their own work and in 1908 the sale brought \$125,000, raised chiefly through volunteer organizations.

The National Tuberculosis Association organized at the International Congress joined with the American Red Cross and under the terms of Agreement, the National Association became the general agent of the American Red Cross during the seal sale. The State Associations organized, received their supplies and remitted ten per cent to the National Tuberculosis Association and Red Cross to be used for further organization work. The Red Cross withdrew from active conduct of the sale and lent to the Tuberculosis Association its emblem and name and they gave to the entire seal sale their moral and financial backing.

In 1919, because of the continued war activities of the Red Cross, and the fact that the war on Tuberculosis had been carried on so successfully that it was necessary to give the Tuberculosis work a separate identity, the Christmas Seal relations were severed with the Red Cross and the Double-barred Cross, which is the emblem of Tuberculosis work the world over, was used on the seal. It has now become a national institution. \$20,000,000 have been raised in pennies in the last fifteen years. The Tuberculosis map itself speaks eloquently of the importance of the Christmas Seal. Today, every State has a Tuberculosis Association with 1200 affiliated Associations.

In the beginning of the first seal sale there were only 100 hospitals and sanatoria for the treatment of Tuberculosis. Today, there are 700 with 63,000 beds and 550 clinics in the United States. At the first seal sale the death rate from Tuberculosis was 200 people in every 100,000 population. Today, it has dropped to 114 per 100,000.

In California in 1914, the first organized seal sale was carried on. The death rate was 139 persons per 100,000 and today, it is 151 per 100,000. Every town and county in California has an organized program for the control of Tuberculosis; the nurses, open air schools, clinics, children's camps, Preventoria, nutrition work, Occupational Therapy in the hospitals, help for patients, dental clinics, and all the educational work that has carried California into the front ranks with its program, have come as the result of Christmas Seals.

Every Community selling seals in California receives from the California Tuberculosis Association the supplies necessary to carry on the sale. 46,000,000 seals have been distributed in California and when the sale is over and has raised the quota, which is the sale of 20,000,000 seals, 75% of the funds will be kept locally, 5% will go to support the National Organization, the State Association will pay for the supplies furnished the local Association and out of the remainder will render service to whatever community needs extra help, during the year.

### Business Block On Marcelena

W. F. Breigtoille, a member of the sales force of the Dominguez Land Corporation, who several years ago, with the foresightedness of a competent real estate dealer, purchased some lots in Torrance, recently traded this residence property for a business lot at the corner of Marcelena and Cuyavaca streets.

Within the past few days he has determined to erect on his new property a business block. While the details of the construction are not yet worked out, he is of the opinion that he will erect a two-story building, the upper part to be devoted to rooms or apartments, and the lower floor divided into two storerooms. While the building will be the first business block to be erected so far from the center of the city, the owner is convinced that there is already a demand for a neighborhood store or stores in that vicinity and expects to have no trouble in leasing both stores, as well as the apartments on their completion.

The young fellow who has money to burn usually has a hot time while it lasts.

You know these will TASTE GOOD.

Yum! Yum!

How good our pickles are. Buy 'em; try 'em; you'll come again for them.

We sell pure, fresh groceries of all kinds at lowest prices. Our business is growing. We shall be glad to have you for a customer. Come in.
